

Project Design Phase

Problem – Solution Fit Template

Date	7 July 2026
Team ID	SWTID-2026-2886
Project Name	Plugging into the Future: An Exploration of Electricity Consumption Patterns
Maximum Marks	2 Marks

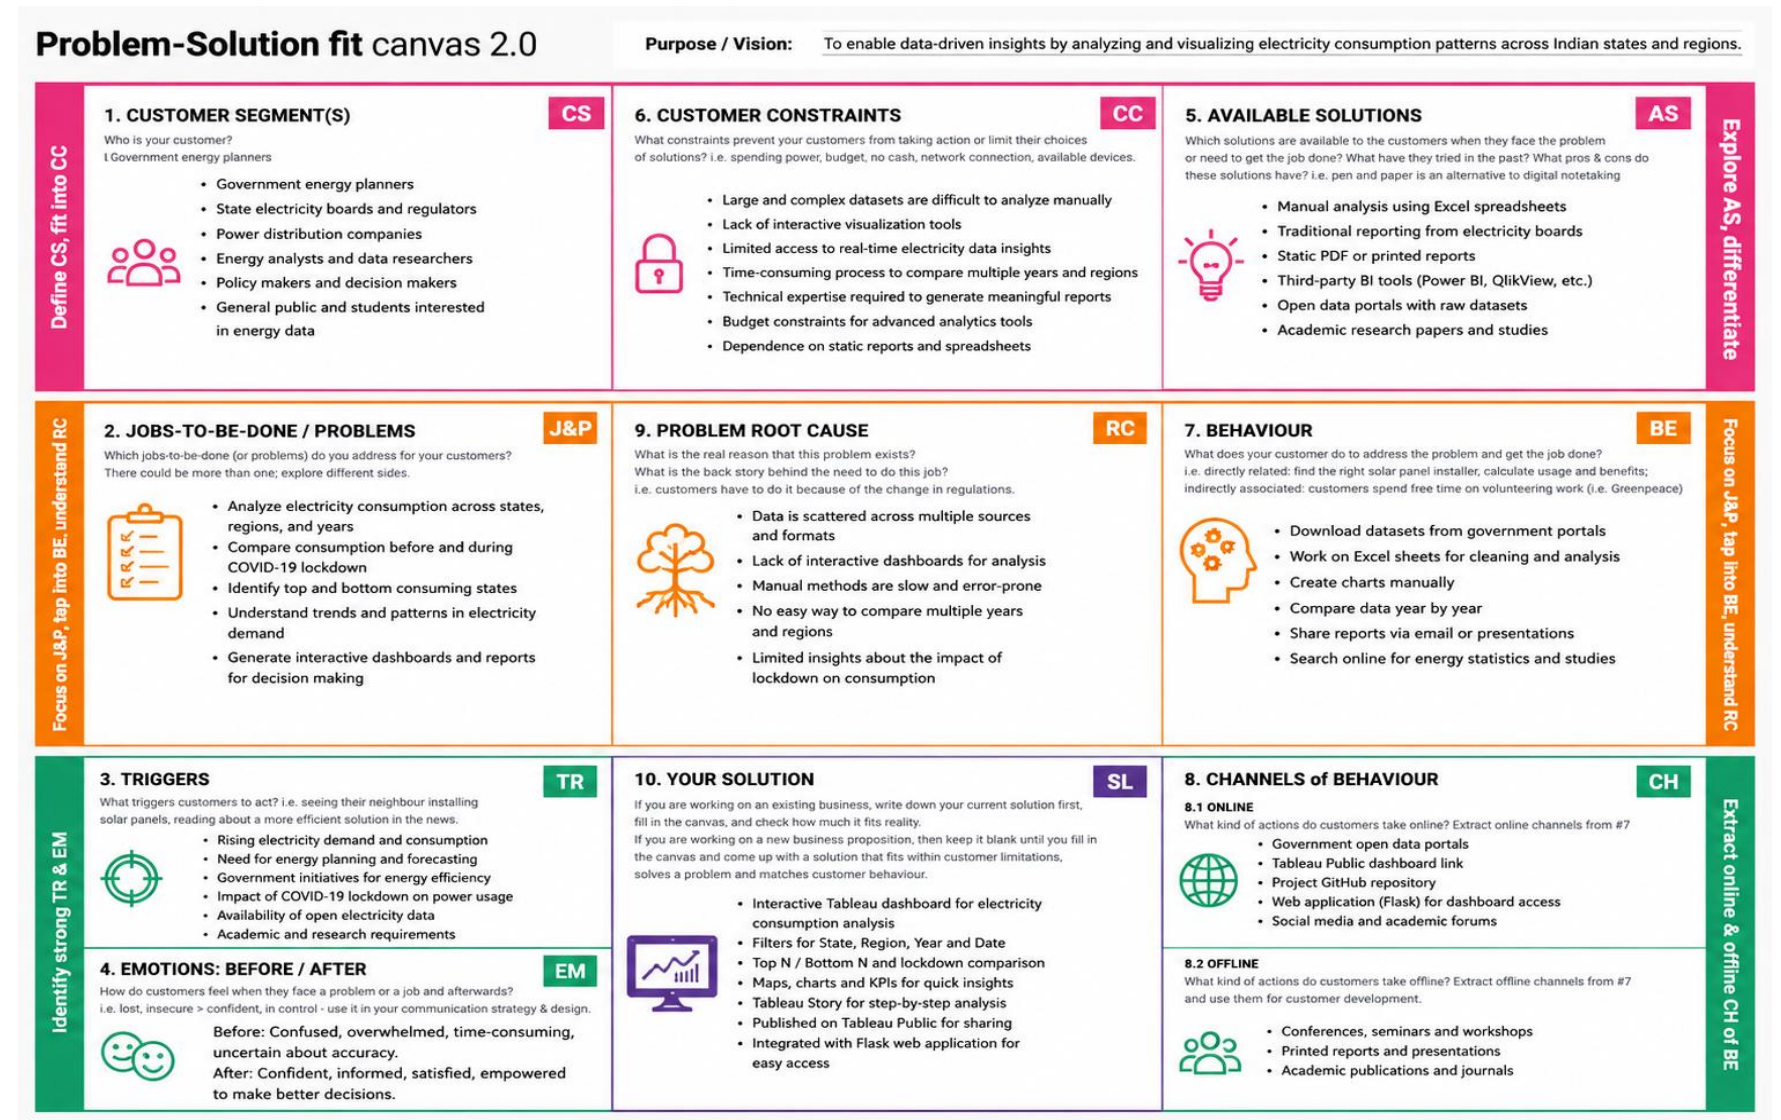

Problem – Solution Fit Template:

The Problem–Solution Fit Canvas explains how the proposed electricity consumption analysis system addresses the challenges faced by energy planners, government authorities, researchers, and decision-makers. It identifies the major problems in analyzing electricity consumption data and demonstrates how the Tableau dashboard provides an interactive, accurate, and efficient solution.

Purpose Purpose

- ✓ Analyze electricity consumption patterns across Indian states and regions using interactive visualizations.
- ✓ Compare electricity usage before and during the COVID-19 lockdown to identify major consumption changes.
- ✓ Help government authorities and electricity boards make informed decisions through real-time insights.
- ✓ Replace manual spreadsheet-based analysis with an interactive Tableau dashboard.
- ✓ Enable users to explore Top N, Bottom N, regional consumption, yearly trends, and state-wise electricity usage through filters and parameters.
